Contractor's duty to defend, indemnify and hold harmless County, its agents, representatives, officers, directors, officials, and employees shall arise in connection with any claim, damage, loss or expense that is attributable to bodily injury, sickness, disease, death, or injury to, impairment, or destruction of property, including loss of use resulting there from, caused by any negligent acts, errors, omissions or mistakes in the performance of this Contract including any person for whose acts, errors, omissions or mistakes Contractor may be legally liable.

The amount and type of insurance coverage requirements set forth herein will in no way be construed as limiting the scope of the indemnity in this paragraph.

The scope of this indemnification does not extend to the sole negligence of County.

4.2 INSURANCE REQUIREMENTS:

Contractor, at Contractor's own expense, shall purchase and maintain the herein stipulated minimum insurance from a company or companies duly licensed by the State of Arizona and possessing a current A.M. Best, Inc. rating of B++6. In lieu of State of Arizona licensing, the stipulated insurance may be purchased from a company or companies, which are authorized to do business in the State of Arizona, provided that said insurance companies meet the approval of County. The form of any insurance policies and forms must be acceptable to County.

All insurance required herein shall be maintained in full force and effect until all work or service required to be performed under the terms of the Contract is satisfactorily completed and formally accepted. Failure to do so may, at the sole discretion of County, constitute a material breach of this Contract.

Contractor's insurance shall be primary insurance as respects County, and any insurance or self-insurance maintained by County shall not contribute to it.

Any failure to comply with the claim reporting provisions of the insurance policies or any breach of an insurance policy warranty shall not affect the County's right to coverage afforded under the insurance policies.

The insurance policies may provide coverage that contains deductibles or self-insured retentions. Such deductible and/or self-insured retentions shall not be applicable with respect to the coverage provided to County under such policies. Contractor shall be solely responsible for the deductible and/or self-insured retention and County, at its option, may require Contractor to secure payment of such deductibles or self-insured retentions by a surety bond or an irrevocable and unconditional letter of credit.

County reserves the right to request and to receive, within 10 working days, certified copies of any or all of the herein required insurance policies and/or endorsements. County shall not be obligated, however, to review such policies and/or endorsements or to advise Contractor of any deficiencies in such policies and endorsements, and such receipt shall not relieve Contractor from, or be deemed a waiver of County's right to insist on strict fulfillment of Contractor's obligations under this Contract.

The insurance policies required by this Contract, except Workers' Compensation, and Errors and Omissions, shall name County, its agents, representatives, officers, directors, officials and employees as Additional Insureds.

The policies required hereunder, except Workers' Compensation, and Errors and Omissions, shall contain a waiver of transfer of rights of recovery (subrogation) against County, its agents, representatives, officers, directors, officials and employees for any claims arising out of Contractor's work or service.

Contractor is required to procure and maintain the following coverages indicated by a checkmark:

Commercial General Liability insurance and, if necessary, Commercial Umbrella insurance with a limit of not less than \$1,000,000 for each occurrence, \$2,000,000 Products/Completed Operations Aggregate, and \$2,000,000 General Aggregate Limit. The policy shall include coverage for bodily injury, broad form property damage, personal injury, products and completed operations and blanket contractual coverage, and shall not contain any provision which would serve to limit third party action over claims. There shall be no endorsement or modification of the CGL limiting the scope of coverage for liability arising from explosion, collapse, or underground property damage.

4.2.2 Automobile Liability.

Commercial/Business Automobile Liability insurance and, if necessary, Commercial Umbrella insurance with a combined single limit for bodily injury and property damage of not less than \$1,000,000 each occurrence with respect to any of the Contractor's owned, hired, and non-owned vehicles assigned to or used in performance of the Contractor's work or services under this Contract.

Contractor waives all rights against County and its agents, officers, directors and employees for recovery of damages to the extent these damages are covered by the

Workers' Compensation and Employer's Liability or commercial umbrella liability insurance obtained by Contractor pursuant to this Contract.

4.2.3.1 Prior to commencing work or services under this Contract, Contractor shall have insurance in effect as required by the Contract in the form provided by the County, issued by Contractor's insurer(s), as evidence that policies providing the required coverage, conditions and limits required by this Contract are in full force and effect. Such certificates shall be made available to the County upon 48 hours notice. **BY SIGNING THE AGREEMENT PAGE THE CONTRACTOR AGREES TO THIS REQUIREMENT AND UNDERSTANDS THAT FAILURE TO MEET THIS REQUIREMENT WILL RESULT IN CANCELLATION OF THIS CONTRACT.**

In the event any insurance policy (ies) required by this Contract is (are) written on a "claims made" basis, coverage shall extend for two (2) years past completion and acceptance of Contractor's work or services and as evidenced by annual Certificates of Insurance.

If a policy does expire during the life of the Contract, a renewal certificate must be sent to County fifteen (15) days prior to the expiration date.

1.4 *BACKGROUND INFORMATION*

- 1.4.1 WIA youth programs are intended to provide youth development services for economically disadvantaged youth 14 through 21 years of age who may face barriers to staying in school, completing high school or finding stable employment. The program provides a full range of work readiness, employment, education, and mentoring services through an array of community partner agencies and contracted youth service providers. Youth services, such as internships, work experiences, training opportunities, and assistance with the completion of high school or GED, are designed for youth who are in or out of school.

As stated above, the Workforce Investment Act draws a distinction between younger youth (14 to 18) and older youth (19 to 21). This is done primarily to assist program providers with designing programs and developing Individual Service Strategies (ISS) to meet the youth development needs of the two different age groups. Also, the mandated program outcomes and performance measures are distinctively different for younger and older youth.

2.0 SCOPE OF WORK

The goal of Maricopa County's Workforce Investment Board (MWC) and Maricopa County Human Services Department (MCHSD) is to provide a comprehensive workforce development system under which Maricopa County residents can access appropriate job training and educational opportunities. All eligible youth must be familiar with services available in the One-Stop System.

As part of the workforce development system, MCHSD will fund a youth program(s) for year-round academic and workforce development services for low-income youth, ages 14 through 21. Successful youth development depends upon smooth transitions between different phases of life, youth programs should also operate under the following guiding principles:

- 2.0.1 *Year-Round Services:* Services are designed to recruit and register youth on a year-round basis, including making services accessible for in-school youth throughout the school year. All youth services and activities must be available to youth twelve (12) months per year and be clearly aligned with youth development principles and goals.
- 2.0.2 *Long-Term Support for Youth:* Services feature strategies that span multiple years and will balance the needs of youth who would benefit from long-term support with youth whose needs are met through more limited interventions. Long-term support includes providing a smooth transition and pathways to remaining in school, high school completion, post-secondary education, job placement and training for occupations leading to careers that offer long-term self-sufficiency for older and younger youth.
- 2.0.3 *Customer-Driven:* Services solicit and integrate input from youth at all phases of program design, implementation, and evaluation.
- 2.0.4 *Accessibility:* Services are easily accessible to both youth and employers, create a safe and youth-friendly environment, are accessible by public transportation, have information accessible via the Internet, accommodate diversity and youth who need special accommodations.
- 2.0.5 *Accountability:* Services commit to a continuous improvement program design by seeking feedback from staff, youth and employers to continually refine the quality of the program services and activities provided for youth. Programs must have well-defined goals and processes that are easily understandable, measurable and accountable. These goals must emphasize participant progress and directly link activities to positive outcomes for youth.

2.3.1 **Overview of Methodology**

Goodwill of Central Arizona's client-centered method of service delivery ensures that youth receive high quality, wrap-around case management, supportive services, and education or career advancement services. The specific activities and program components that Goodwill Career Advisors engage in with youth are outlined in detail below and include descriptions of activities, responsible staff member(s) for each activity and a timeline/timeframe for delivery of each activity. Each of the service elements are delivered in a manner designed to fully support the individual needs of youth through the service delivery process: 1) community outreach; 2) intake and eligibility determination; 3) assessments; 4) comprehensive case management and referral services; 5) training, education or job placement activities; 6) program completion and exit; and, 7) post-program follow-up services.

2.3.1.1 **Case Management/Referral**

This includes coordinating the applicable services to be delivered to the participant, documenting the participant's achievement of the goals identified in the ISS and motivating youth to remain in school and completing high school, preparing them for possible post-secondary educational opportunities, occupational learning or employment/training opportunities.

As a component of case management, referrals should include linking and sharing information with other youth-serving agencies, organizations and training providers in order to achieve the goals listed in the youth's ISS. Goodwill may refer youth participants to external sources, who may be formal partners, to provide the services of the program elements and document this in case notes.

Case management at Goodwill of Central Arizona will be a client-centered process through which strengths, barriers and life circumstances are identified. This process involves participation from Goodwill case management staff and the youth. The Goodwill Career Advisor is responsible for brokering, linking and advocating for each participant as a function of case management. Case management services include, but are not limited to: identifying gaps in services; planning during program participation; obtaining resources; providing services; recording progress; monitoring activities; terminating activities and/or participation; and offering follow-up services for a minimum of one year. The case management process for Youth Offenders will involve wrap-around, client-centered services, which will engage schools, parents and other service providers. Goodwill will provide wrap-around case management services to Youth Offenders in the East Valley of Maricopa County through a network of referral relationships.

Goodwill will use a proven case management model to deliver services to all participants that is currently being used to deliver WIA youth services. A focused and coherent case management strategy is key to participant success and critical to meeting program goals and performance measures. Case management occurs throughout program participation and is designed to provide the youth with the direction and guidance necessary to enhance opportunities for success. The Goodwill Career Advisor works as a professional partner with each youth to: 1) identify and prioritize personal strengths and needs; 2) establish realistic training, education, and employment goals/objectives; 3) develop a plan of action to achieve established goals and objectives; 4) access needed resources; and 5) develop a strategy that will empower the youth to access services on his/her own and reduce dependence on social programs. The goal of case management is to ensure the participant develops the incentive and ability to become responsible for his or her own actions and needs, and enhance the youth's opportunity to achieve long-term economic self-sufficiency.

Goodwill will provide services to Youth Offenders based on the current WIA service model. Goodwill is a partner in the Maricopa Youth Alliance (MYA), a project that assists young adults who have been involved in the Juvenile Justice System in preparing for and obtaining employment in high-growth/high-demand occupations; Goodwill will use contacts developed through that Alliance to provide extensive Outreach Services to reach Youth Offenders in the community. Staff will provide education and outreach to the juvenile probation staff about the program and solicit referrals of youth from designated areas for participation in the program. It must occur very soon after recruitment (within a few days) in order to maintain the enthusiasm about the program. The orientation process will be occurring at various Goodwill and partner locations and will be taken to the youth in their schools and communities, rather than requiring the youth to come to some other location for orientation. Eligibility determination for Out-of-School youth will include a dropout letter from an educational institution, self-certification, transcripts or high school diploma/GED certificate for Out-of-School graduates.

Goodwill will work to streamline the process and identify strategies to remove obstacles associated with securing the required documentation. The Goodwill Outreach Specialist will work with potential participants and legal guardians to expedite the process. Youth determined ineligible for WIA services will be referred to appropriate community resources. Goodwill will provide informational materials in English and Spanish, as well as make them available in alternate formats. These materials will explain eligibility requirements and enumerate the supporting documentation needed, including tips on how to obtain the documentation. 2.3.7 Assessment

A standardized procedure shall be performed to assess the youth in math, language and reading levels. The same pre and post assessment should be utilized on assessing the youth. Assessment

tools and scores must directly relate to the educational functioning levels. Goodwill will utilize the TABE (Tests of Adult Basic Education).

Concurrent with eligibility determination, Goodwill will conduct an initial assessment that will identify the most appropriate match of services from among the subcontractors and collaborative partners. This will ensure that each eligible youth is matched with the agency that can provide the best services to ensure his/her success. The assessment will include an overview of the youth's developmental assets (strengths, resources, positive life circumstances and supports) and gaps (presenting issues or concerns that are situational and /or chronic), basic skills (using the TABE locator), and the need for supportive services such as child care, transportation, health care, legal services, etc. Goodwill will use an assessment specifically for Youth Offenders that will be combined with the Goodwill WIA assessment to develop the ISS.

Assessments of youth will begin at enrollment and continue throughout program participation. Assessments include standardized exams administered to assess math, language and reading levels. The same pre- and post-assessment tools are always utilized when assessing youth. Goodwill will use the Test of Adult Basic Education (TABE) test for enrolled Youth Offenders. For those youth who have a documented disability, the youth's current Individual Education Plan (IEP) serves as the assessment. The IEP must have been created within six months of the WIA enrollment date. The ISS will reflect any basic skills deficiency in math, reading or language as taken directly from the IEP. Goodwill's goal is that all post-assessments reflect a reasonable increase in one of the basic educational areas.

Decisions made and outlined within the ISS are to be done in partnership with the participant and need to incorporate the mandated WIA program elements.

Each youth participant enrolled into a WIA program will develop, with assistance from a Goodwill Career Advisor, an individual competency-based training plan which will include an identification of strengths and barriers, life circumstances, employment/training goals, appropriate achievement objectives, and the appropriate combination of services, education and training for the participant based on data provided by the objective assessment. Goodwill considers the youth's Individual Service Strategy (ISS) to be a living document, meant to be revised and updated as necessary through interaction between Goodwill staff and the youth. The ISS will incorporate the mandated service mix of WIA program elements.

Goodwill staff will complete an initial ISS for every registered youth. The ISS will be an individualized roadmap developed with the youth and will include both the short-term and long-term goals and services. The services that the youth needs to obtain the goals will be identified with the youth indicating what he/she needs in the way of supportive services and other services to reach the goals. This roadmap will connect the services to the ultimate outcomes that the youth agrees to achieve. The development of the ISS will be to enable the youth to achieve self-sufficiency through taking control of his/her life; focusing on the strengths and resources; stressing that the goals are mutually negotiated; and encouraging active participation in all stages of the process.

For Youth Offenders, it is not only crucial to determine the needs in order to achieve success, but to also identify what they already do well and build upon that. The development of the ISS will enable the youth to achieve self-sufficiency through taking control of his/her life; focusing on the strengths and resources; stressing that the goals are mutually negotiated; and encouraging active participation in all stages of the process. The ISS is a fluid, working document designed to be changed and updated whenever necessary. In order to ensure the ISS is always current, the Career Advisor will review with the participant every 30 days. This includes measurable increase or proficiency in basic skills, work-readiness and occupational skills training for all WIA eligible youth. In order to provide comprehensive workforce development services, all eligible youth should be assessed for deficiencies in one of the three skill attainment areas regardless of age. A core indicator of performance for younger youth (ages 14 – 18) under WIA is the younger youth skill attainment rate. For all younger, in-school and any appropriately assessed out-of-school youth, a minimum of one goal per year (participant year) is required. All youth regardless of age must receive skill attainment training in one of these three areas below, based on individual needs:

Goodwill will ensure that all eligible youth will be assessed for deficiencies in at least one of the three skill attainment areas based on individual needs and the guidelines set forth by WIA – Basic Education, Occupational Skills and Work Readiness Skills - to ensure the provision of comprehensive workforce development services. Career Advisors will be responsible for coordinating skills training provision, communicating skill attainment goals and developing a specific educational plan with schools/adult education programs and monitoring progress toward skill attainment outcomes. Career Advisors and youth will mutually establish basic skills goals. Training objectives and evaluation of achievement will be clearly outlined to promote interim goal attainment and provide numerous opportunities for success.

Basic Education Skills training is leveraged through collaborations and partnerships with high schools and adult education programs and community colleges.

Occupational Skills training will be conducted by the Goodwill Career Advisor or partner agency

Work Readiness Training is a scheduled activity for participants whose pre-assessed levels of proficiency indicate a need for this training. Participation in this activity can occur at any time following Objective Assessment and is determined by the sequence of activities outlined in the ISS. The duration of training will vary, based on the participant's learning pace, degree of deficiency and program goal(s). Goodwill Employment Specialists are the primary deliverers of this training. The Goodwill Career Advisor will work with youth on post-secondary education enrollment as well as monitor activities leading to credentials. For those youth who complete a high school diploma or GED the next step is identifying post-secondary education, advanced training or on-the-job training. One option for post-secondary training is the Maricopa Community College District which has campuses in Mesa and Chandler; for some participants that reside east of Central Avenue, it may be more convenient to attend community colleges in Phoenix, such as Gateway or Maricopa Skills Center. However, the primary factor in determining location will be the career goal that the youth is pursuing. Youth may exit at this point, unless further support is identified, which would justify continuation in active enrollment. For those youth who are close to completing advanced training or post-secondary education, they will begin to actively work with their Goodwill Employment Specialist to obtain gainful employment to become self-sufficient. Once the participant has been exited, the Goodwill Career Advisor will provide one year of follow-up to offer additional support and track activity.

2.3.10.5 Job Development/Job Placement

This element ensures that a participant will be placed in a job and retain employment after taking advantage of one or more program activities such as the completion of a certificate training program, work-readiness training, OJT, etc. It is important to place youth in jobs matching their interest and abilities.

Job development activities will include the development of positive social behaviors, soft skills development, decision-making and teamwork. Job development activities will also include paid and unpaid work experiences, including internships and job shadowing. Summer employment opportunities that are linked to occupational learning are also options that will be used. Goodwill will work with employers in the President's High-Growth Industries to develop career pathways for youth participants. Job development activities for younger youth are meant to develop soft skills for successful employment

and offer exposure to the world of work, whereas job development activities for older youth are geared more toward employment placement and job retention. To maximize service delivery, Goodwill's job development activities often run concurrently with education and training activities.

High-quality job placement activities are the key in ensuring that not only are the youth successful, but that the performance measures for the program are met. In addition to the continuum of unpaid work experience, paid work experience and summer employment that prepares youth for employment, Goodwill currently uses the Goodwill Works curriculum in the WIA youth program and it is taught by a Goodwill Employment Specialist. Goodwill will target high-growth industries that are both high-demand and match the interests of the youth. Goodwill has a Business Advisory Council comprised of human resources personnel from companies located throughout the Valley. This council will be used to assist in employer recruitment in addition to job fairs and other methods. In addition, through the Goodwill One- Stop Centers, youth participants can access the resources of the Goodwill Employment Management System (GEMS), a Goodwill-created database of local employment opportunities. The youth will be instructed on how to use GEMS as well as the many other resources in the One-Stop Career Center.

Goodwill of Central Arizona is partnering with the MWC One-Stop Career Centers as a resource in providing support to youth who are seeking employment.

2.3.10.6 Follow-up Services

This element ensures continuity of services and progress towards achievement of participant's goals and performance outcomes. The types of follow-up services provided must be based on the needs of the participant. Goodwill will provide follow-up services for a minimum period of twelve (12) months after exit from the programs.

Follow-up services include, but are not limited to:

2.3.10.6.1 *Leadership development activities.*

2.3.10.6.4 *Work-related peer support groups.*

2.3.10.6.5 *Adult mentoring.*

2.3.10.6.6 *Tracking the progress of youth in employment after training.*

2.3.10.6.7 *Assistance with remaining in and completing school.*

2.3.11 Program Exit and Follow-Up Services:

Youth exited from the program at various times during the program year. Program exits can be planned and executed due to completion or known exit from WIA funded or non-WIA-funded partner services within a specified quarter. Program exits that are not planned can occur for various reasons. Participants may relocate out of the local area or refuse to continue services. In the event of an unplanned exit, once 90 days of inactivity occurs, an exit is generated.

Regardless of the reason for exit, Goodwill provides each participant with one year of follow-up services. The intent of follow-up services is to track performance outcomes and offer continued limited, WIA services. Goodwill's goal is to support the likelihood of completion of training and/or employment retention. Examples of services that Goodwill provides during follow-up include: assistance with securing employment, linkages to leadership development services, and resume writing. Program exit and follow up services documentation will be recorded by the Goodwill Career Advisor in the Virtual One-Stop (VOS) system.

Goodwill will make every effort to ensure all exits from services are planned. Goals and activities will be monitored closely during program participation to reduce unplanned exits. At exit, youth will be formally transitioned into the follow-up phase. Program exits will coincide with the conclusion of program activities. The Follow-up services will be conducted for 12 months after the completion of participation on a monthly basis. Goodwill staff knows that youth will have frequent setbacks and new challenges. Services including additional training; job placement if a job is lost; counseling and when necessary return to housing will be offered by the Follow-up Staff. Weekly follow up groups will be offered at a Goodwill facility for any youth who wishes to attend for ongoing support and learning. Goodwill will continue case management to assure retention and continuation of progress including one-on-one contact and weekly support group activities. Contact with parole or probation will be maintained and recidivism rates tracked. Goodwill will coordinate the recording of the follow-up information, reporting, and the assurances that all information is entered into the hard case file and will be documented in VOS.

2.3.12 ADDITIONAL PROGRAM SERVICES

Goodwill will make the following program services available to eligible participants directly or through linkages and collaboration with other local entities. Goodwill will ensure that each youth participant has access to needed program services to ensure successful program outcomes by creating partnerships in the community. In determining whether a youth will participate in these additional services, the Goodwill Career Advisor will consider program goals established in the ISS and other needs determined by observation and conversations with the youth.

Improving/Educational Achievement:

2.3.12.1 Tutoring and Study Skills Training:

This element promotes improvement of the basic and study skills which lead to better test scores and overall academic performance. Goodwill will structure tutoring and/or study skills training to ensure intensive individualized assistance for youth in need of remediation or skills improvement.

The decision to place youth in this program element will be based on TABE results and discussions with probation officers, the youth and their parents, if appropriate. Goodwill has relationships throughout the East Valley with community colleges, retired teachers, National Honor Society student groups at local high schools and ASU tutoring groups. Goodwill has a collaborative partnership with Principal Tutoring and Counseling Services to provide tutoring and study skills to MWC youth participants.

Goodwill has a youth learning center in Chandler where WIA youth can use the two software programs installed on the computers. Goodwill has a subscription to Skillstutor, a Web based tutoring program that will be available to any youth in need of tutoring or additional basic skills development at the youth learning center in Chandler. A full-time learning center educator certified in providing adult basic education will provide one-on-one and group instruction to youth based on the individual needs of the student. The instructor will use the online software as an educational tool to provide options for skill attainment based on learning styles and individual student needs and competencies. Skillstutor allows program staff to monitor the time spent and the number of lessons completed by a specific participant and provides feedback on areas of mastery and needed improvement. Skillstutor also has available several modules devoted to study skills, with will be used to address critical skills such as note-taking, test anxiety, goal setting, remembering, managing time, listening in class, and test-taking strategies. OdysseyWare, is an online, standards-based program, aligned with the state standards. OdysseyWare Online integrates text, graphics, video, animation and slideshows to provide engaging multi-sensory instruction that targets multiple learning styles. Interactive games, Web links and off-computer projects create opportunities for in-depth study. The online curriculum enables students to achieve success, learn at an individualized level and benefit from an instructional experience and pace that meets their unique needs.

2.3.13 Alternative Secondary School:

Goodwill may refer participants for scheduled alternative educational opportunities that are designed to improve the participant's academic performance and will lead to continuation in secondary school or graduation. Goodwill will identify alternative secondary education possibilities (i.e., adult literacy agencies for older youth, etc.) and coordinate the plan for provision of this program element. All out-of-school youth who do not have a GED or high school diploma must enroll in services to attain either a GED or high school diploma.

The decision to place youth in this program element will be based on TABE results, youth preference and ability to attend regular public school, and level of educational services. Education services for Youth Offenders will typically take one of several forms, depending on his/her education status, individual circumstances, and functional level of basic skills. Whenever appropriate and possible, youth who have dropped out of school will be encouraged to re-enroll in their local high school. This is the optimum course of action for youth who have a reasonable expectation of graduating with their cohort class, were progressing adequately in a traditional school setting, or who have not been expelled or placed on long term suspension. Enrollment in an alternative high school within the youth's school district or at a Charter school is an option if the youth is in need of an accelerated graduation plan offered by these schools, requires a non-traditional educational environment to maximize learning, or his/her behaviors preclude re-enrollment at his/her local high school. Enrollment in an Adult Education program will provide educational opportunities for youth who elect not to re-enroll – or are barred from enrollment – in a traditional high school or alternative high school setting. Adult Education services are also the preferred option for youth who have received a secondary school diploma or its equivalent but are basic skills deficient. Adult Education services will be accessed through any one of several Adult Education programs throughout the East Valley. The focus for in-school youth is to ensure they remain in school and graduate with a diploma. Goodwill's role is one of an intermediary and advocate with teachers, guidance counselors, or social workers at the school in which the youth is enrolled. By communicating with school personnel and parents, the student will reap the benefit of a number of concerned adults encouraging their academic success, completion of school, and transition to postsecondary education/training.

The program will assist youth with credit recovery strategies through technology/Web-based high school courses available in-kind through Mesa School District Distance Learning Program, and SkillsTutor and OdysseyWare programs (described above in Tutoring/Study Skills). Participants will be able to access these courses as a supplement to regular classes. The Goodwill Program Manager will communicate with the youth's high school of record to arrange for credit transfer.

2.3.14 Preparing for and Succeeding in Employment:

2.3.14.1 Summer Employment Opportunities:

Goodwill must link summer employment opportunities directly to academic and occupational learning. Goodwill must develop employment opportunities that are related to each participant's career goal or integrated into the participant's high school education plan.

Goodwill will partner with the MWC One-Stop Centers to provide support to youth who are seeking employment. Goodwill will utilize the One-Stop Centers to introduce youth to the resources and support services available and to provide the universally mandated core services provided for by WIA programs. These might include initial assessment of

skill levels, job search and placement assistance, provision of labor market information, performance and cost of education and training providers in the area, career counseling, information about filing unemployment compensation claims, assistance in establishing eligibility for welfare-to-work programs, information relating to the availability of supportive services such as child care and transportation and follow-up counseling services after someone becomes employed. Maricopa County will display Goodwill youth program information in its One Stops and refer eligible youth for those services. Goodwill staff will work with Maricopa County staff to answer questions and accept and process referrals to our programs. Goodwill staff will schedule weekly visits for introduction to the Centers, including tours and recruitment. We will partner to host and participate in workshops such as about careers in high-demand industries or college enrollment and financial aid information. In addition, our strategy will consist of utilizing the Goodwill Maricopa County Satellite One-Stop to introduce youth to the One-Stop concept.

Summer Employment Opportunities

The decision to place youth in this program element will be based on youth career goals and the number of available employers and funds. Summer employment opportunities directly linked to academic and occupational learning will be provided through Goodwill's existing employer network for both work experience and for unsubsidized employment. Goodwill's large number of business partners will also be involved in providing summer employment opportunities in a large variety of industries. Goodwill will successfully match youth to summer employment opportunities.

Goodwill will pursue other possibilities, other than WIA-funded, for summer employment opportunities as well. Placement will focus on high demand industries where possible.

2.3.14.2 Work Experiences, Paid and Unpaid

Work experiences are planned, structured learning opportunities that take place in a workplace for a limited period of time. This element is designed to enable youth to gain exposure to the world of work and its requirements and may include internships and job shadowing. Goodwill will develop work experiences that help youth acquire the personal attributes, knowledge, and skills needed to obtain a job and advance in employment. Work experience can provide the youth participant with opportunities for career exploration and skill development not exclusively to benefit the employer. Work experience shall focus around high demand occupations and industry clusters.

Work experience may be subsidized (consistent with wage and hour laws) and may include the following activities:

2.3.14.2.1 Instruction in employability skills or general workplace skills.

2.3.14.2.2 Exposure to various aspects of an industry.

2.3.14.2.3 Progressively more complex tasks.

2.3.14.2.4 Internships and job shadowing (unpaid work experience) – This activity is designed to provide informational training and experience to determine the participant's interest in a specific occupation.

2.3.14.2.5 The integration of basic academic skills into work activities.

2.3.14.2.6 Supported work, work adjustment, and other transition activities.

2.3.14.2.7 Entrepreneurship.

2.3.14.2.8 Other activities designed to achieve goals of work experience.

Work experience can occur in the public, private, for-profit, or non-profit sectors where the objective assessment and individual service strategy indicates that work experience is appropriate. Goodwill will be responsible for development of work experiences in public and/or private sector, orientation of work site supervisors and participants, initiating work experience agreements with employer(s), maintaining participant timesheets, monitoring work sites and documenting work activities, payment of wages at no less than the Federal minimum wage rate, completion of I-9 and W-4 forms, and issuing W-2 forms at the end of each year.

The decision to place youth in this program element will be determined by their career goals and the number of available employers and funds. Paid and unpaid work experience will feature a work experience component modeled after the existing Maricopa Workforce Connection Program model and our Work Adjustment/Work Experience activity in our School-to-Work Program. The work experience program is highly individualized and is directed at gaining exposure to the world of work and the expectations of paid employment. Work experiences will assist the youth in acquiring personal attributes, knowledge and skills needed to obtain a job, keep a job and to advance in a job. Goodwill will offer a continuum of work experiences that leads to the development of skills necessary for competitive unsubsidized employment.

Goodwill will provide paid and unpaid work-based experience for program youth, including extensive work-based learning experiences. This continuum begins with unpaid work experiences targeted primarily at younger youth, but may also be used with older youth who need to develop basic work skills. These unpaid work experiences will be developed through a partnership with local employers and will assist youth in developing the skills they need to move into paid employment. Volunteering within nonprofits will serve to increase leadership skills, work readiness skills, budgeting skills and work ethic. Once youth have developed basic work readiness skills through the unpaid work experience and/or other activities such as work readiness classes, the next step in the continuum may include a paid work experience for the youth. The paid work experience will be subsidized and will include other activities to assist the youth in gaining employability skills; exposure to various aspects of an industry; more complex tasks; and integration of academic skills into work activities. Placement will focus on high-growth and high-demand industries.

2.3.14.3 **On-the-job (OJT)**

This training provides WIA youth participants the opportunity to receive training while employed and to be paid wages comparable to other employees in similar positions. OJT agreements with Local Workforce Investment Area (LWIA) provide an opportunity for an employer to be reimbursed a percentage of the wages they pay to WIA youth participants, while participants acquire additional job skills. Each OJT contract is designed for a particular participant and the need for training is outlined in the Individual Service Strategy. The Goodwill must demonstrate how they will collaborate with businesses in high-demand, high-growth occupations to enhance the career goals of the participant.

The Maricopa Workforce Connections Youth Council will set a minimum percentage standard to ensure that contractors are placing participants in OJT's and WEX's in the identified high-demand, high-growth industry clusters.

The decision to place youth in this program element will be determined by the youth career goals and desired field of study and the number of available employers and funds. Goodwill will coordinate on-the- Job Training (OJT) for the youth participants as appropriate for individual youth. OJT will allow employers to be reimbursed part of the wages and the youth participants will learn job skills. Goodwill will work with the Maricopa County Workforce Connection staff for approval of both Occupational Skills training and OJT. Training will focus on high-growth and high-demand industries.

2.3.14.4 **Occupational Skills Training**

This element includes training youth for a specific occupation related to the local labor market demand or according to the needs identified by local employers. Occupational skills training shall lead to a credential in the field of study (certificate, degree, or diploma) and/or related full-time employment. Goodwill shall make every effort to utilize a combination of funding sources to pay for this activity. High demand and industry cluster occupations must be reviewed and explored with participating youth. Goodwill will utilize career path programs for all occupational training when appropriate.

Based on availability of funds, consideration for training dollars will be given on a first-come first-serve basis to youth participants whose Individual Service Strategy plan includes training. Qualified trainers are accessed on an approved Eligible Provider List that has been approved by Maricopa County Workforce Development staff.

The decision to place youth in this program element will be determined by their career goals and desired field of study and the number of available employers and funds. Occupational skill training will be coordinated by Goodwill and by utilization of approved eligible training providers. For those youth who are still in the process of completing secondary education, occupational skills training may not be appropriate until they complete their secondary education. For those youth who complete secondary education and who have an employment goal that requires occupational skills training that relates to specific needs of local employers, Goodwill will assist the youth in entering an appropriate training program. All training will lead to a credential and will be directly related to full-time employment with an appropriate wage. This will ensure that the credential rate, job placement and job retention rate performance measures are met or exceeded. Goodwill will pursue other possible funding sources in addition to the WIA funding. For students entering post-secondary programs that qualify for grants and scholarships, those funds will be pursued. Goodwill also has an internal scholarship program funded by our annual fundraising project, Evening of Goodwill; these funds will also be used for post-secondary training. Training will focus on high-growth and high-demand industries.

2.3.15 **Supportive Services**

This can include financial or non-financial assistance provided to the participant in the WIA youth program for personal needs and to enable the participant to continue training, retrain or obtain employment. Goodwill must make regular contact with the participant for services to be provided. Support services may include, but are not limited to, transportation, childcare, special services, appropriate work attire or work related tools, materials for disabled individuals and linkages to community services.

The supportive services for Youth Offenders are the key elements that Goodwill offers to this population. Support services will begin at the initial intake to address emergent health and well being needs of an entering youth. A complete psycho-social assessment will be completed for each youth. Based on this assessment a plan detailing support services needed by the youth will be developed. The Career Advisor will coordinate with Social Services to assist the youth and his/her family in accessing necessary services. Services will be accessed through existing community resources such as behavioral health providers and court contracted services when possible. Support services will include but not be limited to, coordination of physical and dental care, individual and family counseling, substance abuse counseling, coordination of mental health care, assistance with housing, assistance with child care and parenting skills training.

Goodwill will make every effort to ensure that each youth participant has the needed supportive services to ensure successful program outcomes. This will be accomplished through frequent contact with the youth and discussions that result in understanding their specific needs. A combination of WIA Needs- Related Payments funding and other resources will be used to meet these supportive services needs. Goodwill has developed a wide range of resources for supportive services.

This element provides the participant with intensive guidance related to career exploration, decision-making, goal setting, personal issues and financial management. If the need is determined appropriate, Goodwill may refer the participant to an appropriate organization or counselor who is qualified, experienced and specializes in a particular area. Goodwill will be

responsible to ensure that, if other sources of funding or services are available, they are coordinated and accessed prior to utilizing WIA funds.

Goodwill will utilize a cadre of external partners to provide intensive guidance and counseling related to career exploration, personal issues, drug and alcohol abuse, financial management and goal-setting. Agencies that Goodwill currently utilizes include Catholic Social Services and A New Leaf as well as many others accessed through Community Information and Referral. Youth are eligible for the behavioral health services of Magellan Health Services, the Maricopa County behavioral health contractor. Most of these agencies operate on a sliding-fee scale and youth will be referred accordingly. Goodwill, through a partnership with Arizona Saves, will provide financial education classes on budgeting, using credit, credit repair, preparing to buy a home, preparing to buy a car, predatory lending and identity theft; workshops on how to save, reduce debt and build assets; provide access to no-fee saving accounts, and individual financial coaching in identifying financial goals and developing a plan to meet them.

2.3.17.2 Community service projects

2.3.17.3 Communication and leadership training with peers

2.3.17.4 Career and decision making skills

2.3.17.5 Employment soft skills and budgeting presentations

Goodwill will provide a variety of leadership development opportunities, both formal and informal, including exposing youth to post-secondary educational opportunities and community service. In October 2007, Goodwill was selected as the Lead Agency for Maricopa County for the 2008 Youth Service America Global Youth Service Days. This project will provide opportunities for youth development and leadership prior to and beyond the Global Youth Service Day events. Goodwill also participates in the Governor's Positive Youth Development Subcommittee which works to create opportunities for youth development by pairing youth with an adult for leadership training related to education, policy and career development. Through participation in this subcommittee we are committed to modeling the five keys of success - creating relationships with caring adults, creating opportunities for youth engagement through volunteering and service learning, access to out-of-school programs and activities, high school completion and work readiness. Working with Arizona Call-A-Teen, Goodwill youth participants will be given the opportunity to attend leadership workshops. In addition, the Goodwill Works curriculum includes a module on Leadership Development which all participants receive as part of work readiness classes. Youth will participate in National Youth Job Shadow Week once a year and Goodwill sets up job-shadow experiences throughout the year for youth who can benefit from this experience.

2.3.18.4 Career exploration.

2.3.18.5 World of work and social skills improvement.

2.3.18.6 Participation in community projects

The Goodwill Mentoring Program "Every Youth Counts" will be used as an initiative to empower at-risk youth to make positive life choices that enable them to maximize their personal potential, remain violence-free and resist pressures to use alcohol and drugs. Mentors meet individually with youth, while working closely with the youth's case manager, to provide tutoring and support in building self-esteem and character through sports, service learning and other special events.

Mentors and youth commit to meeting one to two hours each week for one year. Care is given to match mentors and youth who share career interests and mentors are encouraged to create job-shadowing opportunities to assist the youth in achieving WIA career preparation goals. Youth will be encouraged by the mentor to participate in community service projects which foster civic engagement and social responsibility in the youth's community, family and personal life.

Although Goodwill currently operates its own mentoring program, we will continue to partner and refer youth to other programs such as Greater Phoenix Youth-at-Risk that provide broader opportunities for social interaction and community engagement.

2.3.19 Referrals

Referrals will be made to identify partners in the East Valley area of Maricopa County. Referrals will be made based on needs expressed by participant and/or identified by Goodwill staff. During the initial assessment phase, barriers to training and employment goals will be identified and referrals will be made. Goodwill staff will revisit barriers to ensure needs are met. The intent of making referrals is to remove barriers to ensure program success. Referrals will be made during program participation as well as during follow-up. Goodwill will utilize the Community Information and Referral network in addition to the identified partners.

Referrals are made within Goodwill's extensive network of collaborative partners when there is an identified need for alternative and/or ancillary services. Goodwill of Central Arizona is partnering with the Maricopa Workforce Connection One-Stop Career Centers as a resource in providing support to youth who are seeking employment. Goodwill will utilize the One-Stop Career Centers to introduce youth to the resources and support services available at the Centers and to provide the universally mandated core services provided for by WIA programs. These might include initial assessment of skill levels, job search and placement assistance, provision of labor market information, provision of information about the performance and cost of education and training providers in the area, career counseling, information about filing unemployment compensation claims, assistance in establishing eligibility for welfare-to-work programs, information relating to the availability of supportive services such as child care and transportation, and follow-up counseling services after someone becomes employed. Goodwill staff will schedule weekly visits for introduction to the Centers, including tours and recruitment. We will partner to host and participate in specific workshops such as about careers in high-demand industries or college enrollment and financial aid information. MCHSD staff will review performance documents and VSUW will be required to provide names, dates and other relevant information to review appropriateness of payments.

3.5 **Program Measurements**

Workforce Investment Act (WIA) performance levels are annually negotiated between the Maricopa County Human Services Department (MCHSD) and the State. During the contract term, performance requirements may be subject to change as a result of changes in Federal law and WIA reauthorization.

Congress has not passed the reauthorization for WIA. Reauthorization may require some adjustments to performance outcomes, service levels, etc. Upon reauthorization, Common Performance measures may replace the existing regulatory measures. It is anticipated that Maricopa Workforce Connections will negotiate Common Measures with the Arizona Department of Economic Security during the contract period. Common Measures seek to use a single set of measure for all Department of Labor programs.

3.6 **Reporting and Evaluation**

Goodwill will be responsible for submitting monthly and quarterly reports to Maricopa County staff and other reports as deemed necessary. MCHSD will provide the reporting criteria to the provider at the time of contracting.

For the MWC Youth Program, a combination of both qualitative and quantitative evaluation methods will be used to help ensure successful ongoing project implementation as well as to measure the outcomes. Goodwill of Central Arizona's evaluation plan will measure all project goals, objectives and task implementation activities utilizing process and outcome evaluation techniques. All program performance goals will be measured on a monthly and/or quarterly basis and include: placement in employment or education; attainment of degree or certificate; literacy and numeracy gains; successful completion of pre-employment/work maturity skills competency; customer satisfaction; successful program completion. These indicators are representations of the effectiveness of program implementation and through these measures changes in implementation strategy and techniques can be made in order to ensure positive outcomes in all indicators.

Addressing any deficiencies identified through project evaluation: On a weekly basis program staff will meet to discuss the status of the project and to informally evaluate the project through process evaluation. During these weekly meetings any identified deficiencies will be reviewed, discussed and a determination will be made about the most appropriate steps to take to correct or address the deficiencies.

Goodwill will submit a comprehensive, written progress report to MCHSD on a monthly basis (report will be submitted no later than the 10th business day of the next month). Additionally, a quarterly roll-up program report will be submitted with the invoice for outcomes attained. A final program report will be submitted at program completion. Goodwill agrees to provide any additional reports requested from MCHSD, from the Maricopa Workforce Connection Board, the MWC Youth Council or other local, state or federal entities.
